DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-2, 4-15 allowed.
- 2. The following is an examiner's statement of reasons for allowance:

For claims 1 and 9, none of the prior art teach singularly or combination a feedback control section that determines a rotational angular speed based on the output signal and performs feedback control to calculate a rotation angle; and a free-running range change device that narrows a free-running range of the rotational angular speed at a time of starting settling of the rotation angle, wherein the feedback control section performs the feedback control with a predetermined resolution, and the free-running range change device makes a resolution at the time of starting settling of the rotation angle higher than the given resolution of the feedback control section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
